

ALMA NURSERY TEACHERS TRAINING

PROPOSAL 2019-20

PROJECT RUN BY

NURSERY TEACHER TRAINING (NTT)

INTRODUCTION

According to new education policy of Indian Govt., it is necessary to appoint trained teacher in every school. It has been observed that even highly qualified & well-trained teachers do not have good knowledge about childhood and early education. They are unable to understand various behavioral problems of children. Modern time nursery schools are the root of basic education. Therefore, in present scenario N.T.T. has become mandatory to provide quality education and to secure better job or position in the field of pre-primary education. We at NTT the most experienced teachers who are working tirelessly to build great teachers with the help of innovative teaching approaches and methodologies. Our expert professionals have worked hard to develop the most advanced teaching environment for our national and international students. NTT provides a plethora of learning options such as traditional as well as hi-tech classroom teaching. We make sure that our candidates gain in-depth knowledge and understanding of teaching techniques from our courses so that they can become excellent educators.

To support the educational cause, Alma has come forward through established units of Alma Kids and other associates to offer Diploma Certification in Nursery Teacher Training at International standard from World Book of Records– London (UK).

SCOPE

Education in India is overhauling with as many as public and private companies entrance is observed in past few years. The sector is considered as a fertile area to invest because India is expected to have a surplus of 47 million people in the working age group by 2020, which is today causing a huge demand in both the formal education sector (including K–12 and higher education) as well as informal sector (including coaching institutions, preschools and vocational institutions).

Preschool sector is growing exponentially and so is the employment opportunities through play school, child care and nursery teachers. We at NTT wish to produce commendable teachers devoted to teaching young learners from various backgrounds at the Primary, Pre–primary and Nursery level.

NURSERY TEACHER TRAINING (NTT)

INTRODUCTION

ALMA, one of the leading computer education provider organizations, that is engaged in spreading computer literacy in urban and rural areas. The verbal meaning of the ALMA in Latin is Alma Mater (Place of Learning) and in Greek, it is the voice of the soul.

In India, ALMA was established in Indore (Madhya Pradesh) in the year 1999 and has expanded in the field of computer education in various states like – Madhya Pradesh, Gujarat, Rajasthan, J&K, Maharashtra, Goa, Chhattisgarh, Uttar Pradesh, Uttarakhand, Himachal Pradesh, Bihar, Assam, Meghalaya, Tripura, Manipur, Nagaland, Arunachal Pradesh, Tamil Nadu, Karnataka, Kerala, Sikkim, Pondicherry, Delhi and Haryana.

In 2014, Alma Ventured into preschool education through developing a chain of associate members/ partners under the name "Alma Kids International Preschool."

OBJECTIVES

The objectives of Nursery Teacher Training (NTT) are to prepare teachers for pre-primary schools, so that they are able to:

- Develop an understanding of principles and processes of various aspects of child's growth and plan educational activities and tools techniques of child study accordingly.
- NTT is to educate candidates wanting to become primary or pre-primary teachers with the help of effective Class-Room programs and incorporating contemporary teaching techniques and methods over our courses.
- Be aware about role of parents and community in education of pre-school and early primary school children.
- Familiarize with methods, equipments, and materials of early childhood care and education with their effective use.
- Explore new opportunities in preschool sector with competitive potential and capabilities to get employed.

NURSERY TEACHER TRAINING (NTT)

NURSERY TEACHER TRAINING (NTT)

PHILOSOPHY

NTT adopts the philosophy of natural understanding and feeling of children through keen observation by teacher. NTT has come to highlight in the recent times, People have now understood the importance of these courses and with the increase of educational institutions focusing on childhood learning, the demand for qualified primary & pre-primary teachers are rising. To meet this demand NTT Course to provide Primary, Pre-primary and Nursery Education to teachers aiming to teach young children. A certificate course is necessary in order to guide children and keeping in mind the international standards.

The national policy of education adopted in 1986 by Govt. of India recognized the need of early childhood care, education and emphasized on the need of all round development of children during the critical early and moral. The present nursery teacher-training program is especially meeting to develop these abilities in them.

MEMBERSHIP TERRITORIES

METROS - Governed by Mahanagar Nigam (Municipal Corporation)

Licence Fee - 75,000/- INR

Mahanagar Nigam also known as (Municipal Corporation) in India are state government formed departments that works for the development of a Metropolitan city, which has a population of more than 1 Million. The growing population and urbanisation in various cities of India were in need of a local governing body that can work for providing necessary community services like health centres, educational institutes and housing and property tax.

MUMBAI CHENNAI NEW DELHI KOLKATA HYDERABAD AHMEDABAD PUNE BANGALORE

CITY - Governed by Nagar Palika (Municipality)

Licence Fee - 60,000/- INR

In India, a Nagar Palika or Municipality or Nagar Nigam is an urban local body that administers a city of population 100,000 or more. However, there are exceptions to that, as previously nagar palikas were constituted in urban centers with population over 20,000 so all the urban bodies which were previously classified as Nagar palika were reclassified as Nagar palika even if their population was under 100,000. Under the Panchayati Raj system, it interacts directly with the state government, though it is administratively part of the district it is located in. Generally smaller district cities and bigger towns have a Nagar palika.

TEHSIL/TALUKA - Governed by Nagar Panchayat (Notified Area Council)

Licence Fee - 50,000/- INR

A Nagar Panchayat or Notified Area Council or City Council is a form of an urban political unit in India comparable to a municipality. An urban centre with more than 11,000 and less than 25,000 inhabitants is classified as a "Nagar Panchayat". Each Nagar Panchayat has a committee consisting of a chairman with ward members. Membership consists of a minimum of ten elected ward members and three nominated members. The N.A.C. members of the Nagar Panchayat are elected from the several wards of the Nagar Panchayat on the basis of adult franchise for a term of five years. There are seats reserved for Scheduled Castes, Scheduled Tribes, backward classes and women. The Councillors or Ward Members chosen by direct election from electoral wards in the Nagar Panchayat.

VILLAGES - Governed by Panchayati Raj System

Licence Fee - 35,000/- INR

A village is a clustered human settlement or community, larger than a hamlet but smaller than a town with the population ranging from a few hundred to a few thousand (sometimes tens of thousands).

Renewal Amount would be 15% of Licence Fee.

NTT – A Source of Women Empowering

Becoming a preschool teacher can be a very rewarding career. You will be shaping the minds of young children during their most impressionable years. Preschool teacher can work in a variety of locations, such as private or associated daycare facilities, elementary schools, private or public preschools and employee sponsored day cares. One thing is for sure, there are particular qualifications and/or qualities that parents look for in a preschool teacher before deciding where to place a child in a preschool teacher's care. It is not an exaggeration to say that a great teacher can change a student's life. There are an endless amount of stories that attest to the benefits of a strong relationship between an educator and pupil. If you want to be a great educator, you must connect with your pupils and reach them on multiple levels, because the best teachers are committed to their students' well-being both inside and outside the classroom. By forging strong relationships, educators are able to affect virtually every aspect of their students' lives.

Teaching is one of the most complicated jobs today. It demands broad knowledge of subject matter, curriculum, and standards; enthusiasm, a caring attitude, and a love of learning; knowledge of discipline and classroom management techniques; and a desire to make a difference in the lives of young people. Nursery teachers training strive to motivate and engage all their students in learning rather than simply accepting that some students cannot be engaged and are destined to do poorly. They believe every student is capable of achieving success at school and they do all they can to find ways of making each student successful. And this is the key preparing lesson plans, teaching classes and evaluating student progress. Encouraging students and acting as teacher–advisors for students.

I would like to invite all those people who are promoting and supporting the cause of Preschool Education through dedication. NTT welcomes to all of them to join being members and contribute their efforts in the national progress. Finally yet importantly- let us come together to educate new generation of the country through encourage NTT.
